CodeRace Challenge 2025

Instruction Round 1

1 Notice & Declaration

This document and the information in it are provided in confidence as a guide only for Round 1 of CodeRace Challenge 2025, is not professional advice, including legal advice and may not be disclosed to any third party or used for any other purpose without the express written permission of Bosch Global Software Technologies Vietnam. It should not be assumed that the guidance is comprehensive or that it provides a definitive answer in every case.

2 Round 1 Instruction

The topic and instructions for **Round 1 of CodeRace Challenge 2025** are provided below. Please read the requirements and format submission carefully for better assessment.

2.1 Overview

Each team will have 48 hours to research your understanding and solutions and build concept design for the provided problem statement.

Please kindly arrange your outputs and store it into a shared link and submit directly via email to EmployerBranding.BGSW-VN@vn.bosch.com with subject **CodeRace 2025 – Team's Name – Round 1 Submission**.

You are required to finish and submit your completed output until 30 June, 08:00 AM as latest.

2.2 Topic

Research and propose a solution that uses car data (from the CAN signal) to support drivers in a specific situation (e.g., city driving, highway emergencies).

For example, the data from CAN signal should include:

1. Engine Status
2. Brake pedal status
3. Acceleration pedal status
4. Steering wheel angle
5. Gear information
6. Wheels speed
7. Pata status
8. Pressure sensor information
9. Yaw rate sensor information (Ax, Ay, Yrs)

Submission should include slide explaining the idea, business context, vision, goals, market and scientific research; algorithm development; work package breakdown within team. Each must record a video explaining the idea and submit a link to the video, which should not exceed 3 minutes.

2.3 Project Deliverables

____(1) Topic Research (business context, vision, goals, market and scientific research)_____

- (2) Software Design
- (3) Algorithm Development
- (4) Innovation vs. Current System
- (5) Work Package Breakdown
 - Identifying key milestones and deadlines
 - Assigning tasks and responsibilities within team

2.4 Evaluation Criteria

Please refer the evaluation criteria as below:

- Topic Research
- Software Design
- Algorithm Development
- Work Package Breakdown
- Video Presentation
